Terms and conditions apply and are based on eligibility.

APR stands for the Annual Percentage Rate of charge. You can use it to compare different credit and loan offers. The APR includes important factors such as the interest rate you must pay, how you repay the loan, the length of the loan agreement, frequency and timing of instalment payments and amount of each payment. All loan applications are subject to status checks, terms and conditions and checks to satisfy credit worthiness and affordability. Warning, late payment can cause you serious money problems.
