5

COST OF THE SCHOOL DAY

We are committed to reducing the cost of the school day

- Supporting Uniform replacement
- No cost for activities/trips to enhance curriculum for identified pupils
- No cost for participation in extra-curricular activities
- Digital devices provided if required

PARTICIPATORY BUDGET

Our pupils and staff have opted to spend some of the allocated 4% of our PEF budget on reducing the cost of the school day for some of our most financially vulnerable families. This includes ensuring they can participate in all curriculum trips and activities at no cost.

7

FLEXIBLE LEARNING HUB

We offer a flexible curriculum to support many learners who, for various reasons, can struggle to access the mainstream curriculum in a class environment. These learners are supported to gain qualifications through a small group approach in a highly supportive and nurturing environment.
We also use some of our PEF to provide alternative, more vocational based courses including Youth Action, Hairdressing and The Larder.
